

Freedom of Information request: Reference number FOI2026/00932

Date of request: 5th August

Request:

Re: Freedom of Information Act 2000 Request – Vehicle Maintenance Records (xxxxxxx)

I am writing to make a formal request for information under the Freedom of Information Act 2000. Please provide copies of all maintenance, servicing, and safety inspection records held by the London Fire Brigade for the following specific vehicle in your non-operational support fleet:

Vehicle Make and Model: Mitsubishi Outlander Juro PHEV
Registration Number: xxxxxx (see request)

Information Requested: Complete service history, routine maintenance logs, safety inspection certificates, defect reports, and details of any mechanical repairs.

Timeframe: All records held from the vehicle's date of first registration/acquisition by the Brigade to the present date.

If any part of this request is unclear, or if you require further details to locate the data, please contact me as soon as possible so I can clarify or refine it.

I am looking to purchase this vehicle, therefore keen to establish it's service history.

As required by the Act, I look forward to receiving your response within 20 working days.

Response:

I refer to your request for information, which we received on 5 August 2026, and which has been processed as a Freedom of Information request.

You have requested all maintenance, servicing, and safety inspection records held by London Fire Brigade for the vehicle registered WP69 VYO, a Mitsubishi Outlander Juro PHEV, including service history, routine maintenance logs, safety inspection certificates, defect reports, and details of any mechanical repairs.

I can confirm that London Fire Brigade does not hold the information you have requested. LFB vehicles are sold at auction on behalf of the Brigade by Babcock International Group. Once a vehicle has been sold in this way, the associated records including service history, routine maintenance logs, safety inspection certificates, defect reports, and details of any mechanical repairs are held by Babcock International Group, not by London Fire Brigade. Accordingly, we are unable to provide the records you have requested.

If you wish to obtain the service history and maintenance records for this vehicle, you may wish to contact Babcock International Group directly, as they would be the appropriate point of contact for this information.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website:
