

**Freedom of Information request:** Reference number FOI2026/00664

**Date of request:** 9th June

**Request:**

I would like to make a freedom of information request.

I am doing a research project investigating call-off contracts in the public sector. I have identified two potential call-off contracts awarded by London Fire Brigade, but I can't find details of the framework agreements they were awarded from, or which lots were used.

I have attached an Excel file that contains the information I am looking at. The last two columns ("Title of framework used" and "Further framework info") is where I am missing information. Please could you provide the name of the specific framework agreement or DPS/Dynamic Market used here, as well as the lot used if the framework was divided into lots. If there is any further info which you think would help me locate the framework agreements (e.g., a link to the framework's Contract Finder or FTS listing, the framework provider, or a widely-used reference number such as CCS's RM codes), please use the final column for this. Please use the second column for the relevant lot information.

Please note that I have identified these contracts as possible call-off contracts, so some of them might not be. Some could be, for instance, procured directly (without being called off from a framework agreement), or could be themselves notices of the establishment of a framework agreement. Therefore I would kindly ask you to specify in these incidences what kind of procurement was used in the "Title of framework used" column.

**Response:**

Thank you for your enquiry regarding London Fire Brigade contract notices that you have identified as potential call-off contracts.

Following a review of the procurement notices referenced in your spreadsheet, the information held in relation to the framework agreements and procurement routes used is set out below.
