

**Freedom of Information request:** Reference number FOI2025/00714

**Date of request:** 11th July

**Request:**

Hello, I am a surveyor and trying to find out maintenance criteria for pavement light style smoke vents. I have searched BSI online to no avail but found a LFB letter suggesting the document FSGN 506. However I cannot find such a document. I have a copy of BS7346-8 but this does not appear to directly discuss destructible pavement vents.

**Response:**

Please see our response to a similar request received in July 2024 that is published on the LFB website. The response includes a copy of FSGN 506 (Smoke Outlets) guidance note.

The response can be accessed using the following link:

<https://www.london-fire.gov.uk/media/vgqb510h/foi-response-8885-1-fsgn-506-smoke-outlets.pdf>

For more information about the obligations for fire safety placed on those that own or have responsibility for property, you may be interested in the information published on the government's website (<https://www.gov.uk/government/collections/fire-safety-legislation-guidance-for-those-with-legal-du-ties>).

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website:
