

**Freedom of Information request:** Reference number FOI2025/00591

**Date of request:** 8th June 2025

**Request:**

While the current “London Fire Brigade Incident Records” dataset provides a detailed breakdown of incidents, it only includes location data in the form of coordinates (i.e., USPRN/UPRN). However, for our research into the progression of incidents within specific boroughs—and for follow-up communications with insurance companies—we require the actual incident addresses of the properties.

What is required:

- The actual properties addresses of the incidents
- Since the past Year i.e Since 2024 till May 2025 (as inserting addresses may take considerable time you can give atleast past 6months)
- Boroughs are: Ealing - Brent - Camden - Westminster - Harrow -Haringey - Islington - Hammersmith fulham - Richmond upon thames - Kensington and Chelsea -Waltham forest - Redbridge - Southwark - Hackney -Wandsworth - Barnet - Merton

**Response:**

Further to your request, as the information can be found on the [London Datastore](#), LFB is not required to reproduce the information regarding incident records. This exemption applies under [section 21 of the FOIA - Information accessible to the applicant by other means](#).

We have dealt with your request under the Freedom of Information Act (FOIA) 2000. For more information about this process, please see the guidance we publish about making a request on our website: <https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us/>
