

Freedom of Information request: Reference number FOI2026/01092

Date of request: 4th September

Request:

I am writing to request information on all enforcement notices served on Higher Risk Buildings (defined by the Building Safety Act 2022 as at least 18m in height or at least 7 storeys with at least 2 residential units) within LFB's jurisdiction between 1 January 2018 and the date of this request. I would be grateful for this information to be presented as an Excel file.

For clarification, the information I seek is identical to the information presented in the public notices section under the community tab on the LFB website, save for my request is limited to HRBs. The public notices cannot be extracted and are not searchable in the same manner as the data sets. The data set titled 'Regulatory Fire Safety Inspections and Audits' is limited in information in that it lists all residential buildings, it does not define any property by height, and it does not include details of the breaches under the Regulatory Reform (Fire Safety) Order 2005.

Should the information I seek already be in the public domain, please direct me to the relevant disclosure log or data set.

Response:

I refer to your request for information received on 4 September 2026, which has been processed under the Freedom of Information Act 2000.

You requested details of all enforcement notices served on Higher-Risk Buildings (HRBs), as defined by the Building Safety Act 2022, within the London Fire Brigade's jurisdiction between 1 January 2018 and the date of your request. For the purposes of your request, HRBs are buildings that are at least 18 metres in height or at least 7 storeys and contain at least 2 residential units.

The London Fire Brigade holds information within the scope of your request. We have compiled the relevant records and attached them in Excel format. The dataset covers enforcement notices issued between 1 January 2018 and 24 September 2026.

You noted that enforcement notices are published on the London Fire Brigade's Public Notices webpage. While this information is publicly available, the website does not provide the functionality to search, filter or extract the data in the format requested. The attached spreadsheet has therefore been provided to assist by presenting the information in a structured and searchable format.

We have dealt with your request under the Freedom of Information Act 2000. Further information about the FOI process and how to make information requests is available on our website: <https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us/>.

Job Type: FS03 - Enforcement Notice**Job Step: 140.00 - Issue enforcement notice****Completed between: 01/01/2018 and 24/09/2026****Job Step Occurrence with Detail**
