

**Freedom of Information request:** Reference number FOI2025/00250

**Date of request:** 28th February

**Request:**

Regarding Incident 097773 - 03072022 - St Marks Square

During the interview, I was told that it might be possible to receive information, i.e. a 'read-out', from the Breathing Apparatus (BA) used in this fire (July 2022). Would it be possible to receive a copy of this information?

Furthermore, I understand that BA crews have produced statements for this fire, and that there could be contemporaneous notes. Again, can I please request a copy of this.

**Response:**

In response to the above we can confirm that the London Fire Brigade do not hold any BA data for this incident.

The BA crew did not produce statements. If our Fire Investigation team attended they would have produced notes. This should have been a part of the interview process.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website:
