

Freedom of Information request: Reference number FOI2026/01216

Date of request: 28th September

Request:

Thank you for providing me with a previous request for a FOI over visits to Forston Apartments

I wonder if you could provide a further update of the visits as A FOI request to update my records and if you could also provide how much it costs the Fire Service to attend each call out, as many if not in fact all are only to reset the fire alarm in the block but are attended by several fire units

Response:

Thank you for your request of 28 September 2026 regarding attendances by the London Fire Brigade (LFB) at Forston Apartments since your previous request (FOI2026/00254).

The information you have requested is publicly available via the London Datastore, which publishes details of incidents attended by the London Fire Brigade and is updated monthly. The dataset includes the notional cost associated with each incident attendance and can be accessed here: <https://data.london.gov.uk/dataset/london-fire-brigade-incident-records>

Within the dataset, column AL contains the notional cost of each incident attended by the LFB. As the dataset is updated regularly, you are able to identify and monitor ongoing attendances at a specific location without the need to submit further Freedom of Information requests.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website: <https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us>
