054	Pipelines - incidents involving high pressure multi-fuel pipelines
098	Fires and incidents involving biological risks
080	Selection of electrical and electronic equipment for use in hazardous atmospheres
004	Smoke outlets
120	Phased evacuation of high-rise premises
079	Sprinkler floor isolating valves
112	Magnetic Resonance Imaging (MRI) and Computerised Tomographic (CT) Scanners
288	Resuscitation Equipment
298	Operations at radio transmitter sites
411	Notification of contamination or possible contamination by materials hazardous to health
336	Mobile communication devices
339	Matel field telephone
414	Incident monitoring process
466	Respiratory protective equipment - breathing apparatus - operational procedures - NOG
467	Breathing apparatus sub-surface procedure - NOG
502	Chemical protective clothing - technical information

## Full policy list – 18 November 2024

Number	Title
476	RPE - BA - MSA M1 - technical information
518	Messages from incidents
519	Incidents involving asbestos
602	Incidents involving ionising radiation
584	Firefighter decontamination
618	Immediate emergency care equipment HeartStart FRx defibrillator - technical information
206	Environmental protection
633	High rise firefighting
645	Operational support unit
685	Lasers and their associated hazards
697	Automatic fire alarms - operational response
724	Appliance inventories and operational readiness - NOG
772	Reliefs at Incidents
733	Portable Hygiene Unit
737	Womens welfare pack
739	Respiratory protective equipment and chemical protective clothing - operational wearer policy
745	National police air support helicopter down-link facility
759	Respiratory protective equipment – protection against particulates – operational procedure - NOG
749	Hose layer unit (HLU)
761	USAR personal protective equipment
760	RPE - MSA connected firefighter telemetry system - technical information - NOG
803	Search and rescue procedures within structures
765	Respiratory Protective Equipment – PSS Merlin telemetry simulator – technical information
790	Fire survival guidance - NOG
793	Compartment firefighting
797	Detection identification and monitoring (DIM) instruments

## Full policy list – 18 November 2024

Number	Title
798	RPE - ancillary equipment - technical information
796	HAZMATS; fires and incidents involving hazardous substances
804	Natural gas and carbon monoxide
805	Sub-surface railway HAZMATS procedure
806	Fireworks and explosives - incidents and fires involving explosive materials
808	Hazardous materials and environmental protection - mass decontamination
814	USAR medium personnel carriers (MPC)
813	Driving Brigade vehicles - NOG
820	Forward information board
883	Tactical ventilation - NOG
834	Fires involving chimneys and ducting
825	Operational Improvement Process
822	Operational use of turntable ladders
827	Firefighting foam
850	Damage control
859	Controlled burn
835	International Search and Rescue (ISAR)
838	Incidents involving waste recycling or refuse derived fuel handling and storage
847	Out of LFB deployment
861	MSA SavOX oxygen escape set
