

Freedom of Information request: Reference number FOI2025/00573

Date of request: 16th March

Request:

New Road, Rainham: Fire incidents attended between 152-182 (inclusive) on A1306/New Road in London Borough of Havering over the last ten years. With regards to the previously answered enquiry FOI2025/00075, can you please further break down the 'Fire' figures by Code 1, Code 2, and Code 3?

I would like the previous request 'Fire' figure, broken down by amount of calls under each Stop Code.

If it easier, can I have each 'Fire' incidents individual 'stop message'?

Response:

In response to the above, the LFB does not use Code 1, Code 2 and Code 3. I have attached below the Incident numbers and the stop codes.

The London Fire Brigade publishes incident data on the London Data store. This can be found here <https://data.london.gov.uk/dataset/london-fire-brigade-incident-records>

If you download the 'LFB Incident Data from 2018' spreadsheet you can filter and search by incident number.

The LFB also publish mobilisation records which can be found here <https://data.london.gov.uk/dataset/london-fire-brigade-mobilisation-records>

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our [website](#)
