**Response:**

This information is exempt from disclosure to you under [section 21 of the FOIA, Information accessible to applicant by other means](#).

As we routinely get asked for information about the vehicles in London Fire Brigade's Fleet, we have published these details on the [London Datastore](#) to assist those who request it.

The details published are those that we are able to make public without compromising the safety or security of our staff or property. We are often asked for information such as vehicle registration numbers, but we do not publish these or other sensitive data as we believe the exemption for the protection of national security would apply.

The information we publish about our fleet is accessible via the following link: <https://data.london.gov.uk/dataset/london-fire-brigade--fleet-list>

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website: <https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us/>
