

Freedom of Information request: Reference number FOI2026/01038

Date of request: 24th August

Request:

I hope this email finds you well.

I am writing to request the following under the Freedom of Information Act 2000:

1. Of the high-rise premises 18m+ buildings within the area that you cover - that were identified following Grenfell as having potentially dangerous cladding - How many of those still have the potentially dangerous cladding identified as of August 1st 2026?

Q1 clarifications

- I am referring to high-rise premises 18m+ of any purpose and any ownership
- Potentially dangerous cladding meaning ACM cladding as Grenfell did, or similar cladding which has been identified as having a potential increased safety risk from fire

2. Can you provide a list of the buildings still affected?

Response:

Thank you for your request for information. Your request has been processed under the Freedom of Information Act 2000 (FOIA).

The information requested is provided in the table attached to this response, which sets out the number of buildings over 18 metres in height that, as of 1 August 2026, remained identified as having potentially dangerous cladding in place.

Regarding question 2, the London Fire Brigade holds information within the scope of this part of your request. However, this information is exempt from disclosure under [Section 38\(1\)\(b\) of the Freedom of Information Act 2000](#).

[Section 38\(1\)\(b\)](#) provides an exemption where disclosure would, or would be likely to, endanger the health or safety of any individual. This is a qualified exemption and is therefore subject to the public interest test.

The Brigade recognises the public interest in transparency regarding building safety and remediation following the Grenfell Tower fire. However, disclosing the identities and locations of buildings known to retain potentially dangerous cladding would be likely to increase risks to the safety and security of those associated with those premises and could cause unnecessary distress to residents and occupants.

Having considered the public interest arguments both for and against disclosure, London Fire Brigade has concluded that the public interest in maintaining the exemption outweighs the public interest in disclosure. While the aggregate number of affected buildings has been provided in response to Question 1, the names and addresses of those buildings are withheld under [Section 38\(1\)\(b\)](#) of the Act.

We have dealt with your request under the Freedom of Information Act 2000. For more information about this process please see the guidance we publish about making a request on our website: <https://www.london-fire.gov.uk/about-us/transparency/request-information-from-us/>
